

Soft Tissue Management

***Once-in-a-lifetime
Dental Educational
Experience and Leisure***

***March 11 - 22, 2023
Tel Aviv • Israel***

Dear Colleague,

We are thrilled to welcome you to this special course of Soft Tissue Management in Israel, which combines a unique program of educational sessions lead by Dr. Marius Steigmann, with leisure. The educational part of the course will be focusing on the elements for a successful dental implant. The tissue thickness dictates the way it is manipulated for high volume augmentation. The course is intended for dentists with basic implant experience that would like to improve their skills in soft tissue management.

Course Objectives

The participants will learn and train step by step how to gain for soft tissue tension free closure, even in cases of reduced soft tissue thickness. By examples of failure how to avoid mistakes, and how to build treatment plans based on individual circumstances. You will also get the indication how to plan prosthetically and aesthetically the position of the implant on special designed models. The hands-on exercise will let you practice these specific techniques with specially designed instruments (micro-instruments & soft tissue splitters) and learn suturing techniques, with different suturing materials.

Course Topic:

- ◆ Prosthetic Soft Tissue Development
- ◆ Soft Tissue Complications and Full Arch Restoration
- ◆ Soft Tissue Management for Vertical Augmentation

Leisure Activity

Israel is a wonderful and historical destination. A lively Mediterranean metropolis combining ancient history and modern skyscrapers, a wide variety of tasty street food cuisine, sincere hospitality from the Israeli people and above all, a warm climate even at the end of December. During this unique 12-day program, we have organized an intensive educational program with an impressive itinerary of leisure and extensive touring in: Jerusalem, Masada, Dead Sea (the lowest place in the entire world), Haifa, Nazareth, Tel-Aviv and other beautiful parts of Israel.

All dinners and activities are included in the course fee. We also plan a full activity program for your companion while you take in and benefit from the educational program.

We are sure there will be something that everyone likes.

See you in Israel

Saturday ♦ March 11, 2023 ♦ 18:00
Welcome Reception / Meet & Greet

Sunday - Monday ♦ March 12 - 13, 2023 ♦ 8:30 - 22:00
2 Day Tour - Getting to know Israel

Tuesday ♦ March 14, 2023 ♦ Free day

Wednesday - Friday ♦ March 15 - 17, 2023 ♦ 8:30 - 16:30
**Prosthetic Soft Tissue Development & Soft Tissue
Complications and Full Arch Restoration**

Clinicians will learn how to build treatment plans based on individual circumstances. They will learn to utilize modern prosthetic technology for reconstruction of soft tissue for single and multiple implants. The participants will get to plan prosthetically and aesthetically the position of the Implant.

With the increasing number of implants placed in the aesthetic zone immediate or delayed we face soft tissue complications like recession of the soft tissue and papilla loss. This course will show individualized approaches to correct papilla loss in the aesthetic zone with the help of modern flap design techniques. With the increasing demand of an aesthetic outcome, soft tissue management for full arch restoration has become a necessity.

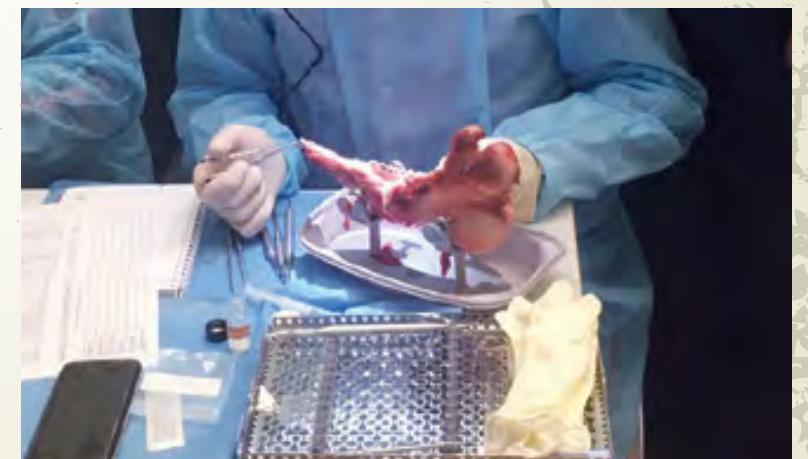

Saturday ♦ March 18, 2023 ♦ 8:30 - 22:00
1 Day Tour - Getting to know Israel

Sunday - Monday ♦ March 19 - 20, 2023 ♦ 8:30 - 16:00
Soft Tissue Management for Vertical Augmentation

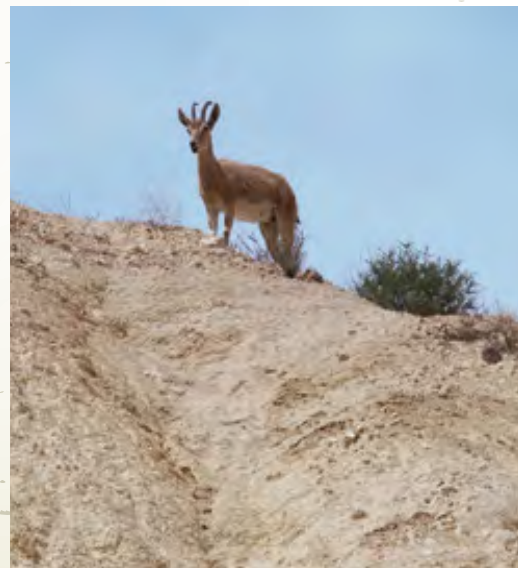

Vertical bone loss represents a major surgical challenge in the implant treatment of the posterior mandible, due to anatomical factors and technical difficulties. For this reason, special techniques are necessary for the lingual, buccal and palatal flap management.

A proper management of the soft tissues is a crucial point for the success of this kind of regenerative procedure.

Tuesday ♦ March 20, 2023 ♦ 8:30 - 22:00

1 Day Tour - Getting to know Israel

Wednesday ♦ March 22, 2023

Free Departure
