STEIGMANN

implant institute

Dr. Marius Steigmann graduated in Dental Medicine in TG.Mures Romania in 1987. In 2005 Dr. Steigmann received his PhD Summa cum laude from University of Neumarkt.

- Dr. Steigmann is a Diplomate of the ICOI, served as ICOI Vice President of Germany from 2005 to 2011 and was a board member of the DGOI for 15 years.
- He has also received the medal of “Semmelweis” Budapest University Dental School Dept. of Oral and maxillofacial surgery.
- Dr Steigmann is an adjunct Clinical Associate Professor University of Michigan Dept. of Periodontics.
- He held the position of Adjunct Assistance Professor of Oral Maxillofacial Surgery Boston University.
- He is also an Honorary Professor of the “Carol Davila” University Bucharest since 2003.
- Dr Steigmann is the founder and Scientific chairman of “Update Implantologie Heidelberg” 2002-2011
- He is the founder and director of the “Steigmann Institute”.
- He maintains a private practice in Neckargemünd, Germany

Dr Marius Steigmann. D.D.S, Ph.D

The main purpose of **Module 4** is to explain, demonstrate and teach soft tissue complication and full arch restoration.

With the increasing number of implants placed in the aesthetic zone immediate or delayed we face soft tissue complications like recession of the soft tissue and papilla loss. This course will show individualized approaches to correct papilla loss in the aesthetic zone with the help of modern flap design techniques. With the incising demand of an aesthetic outcome, soft tissue management for full arch restoration has become a necessity

Day 1: Preventing and repair of soft tissue complications around implants & Full arch reconstruction

Module 5 focuses on soft tissue management for vertical augmentation in the mandible and maxilla.

Vertical bone loss represents a major surgical challenge in the implant treatment of the posterior mandible, due to anatomical factors and technical difficulties. For this reason, special techniques are necessary for the lingual, buccal and palatal flap management. A proper management of the soft tissues is a crucial point for the success in of this kind of regenerative procedure.

Day 2: – Soft tissue management for vertical augmentation In the mandible & maxilla for thick Vs thin Biotype

- Buccal management & lingual flap manipulation for small & large volume augmentation
- Incision flap design for vertical augmentation in the Aesthetic Zone
- Suturing techniques for vertical augmentation dependent on the location

Day 3: Hands-on workshop:- Participants will exercise on pig jaws vertical augmentation for the anterior maxilla and posterior mandible.

REGISTRATION FEES:

- Option 1** : Includes all main course lectures & Hands-on Lecture (Module 4 & 5) (Mon, Tues & Wed, 24, 25 & 26, November 2025) – **EURO € 3,800.00**
- Option 2** : Includes all main course lectures only (Module 4 & 5) (Mon & Tues, 24 & 25, November 2025) – **EURO€ 2.600,00**

SPECIAL DISCOUNT

- **SUPER** EARLY BIRD DISCOUNT – Register with payment before 30 March 2025
 - receive **10% OFF** Regular course fees
 - Receive 2 units of Soft Tissue Splitting Instrument (bone scrapper & Skin-Papillae Elevator) *(worth EURO €450)*
- **EARLY** BIRD DISCOUNT- Register with payment before 30 June 2025
 - receive **5% OFF** course fees
- STEIGMANN INSTITUTE ALUMNI DISCOUNT – Register before 30 May 2025
 - receive **50% OFF** course fees (lecture only)
- Each participant will receive a hand-out with most of the articles published by Dr. Marius Steigmann
- Each participant will receive a Steigmann Implant Institute Graduation Surgical Scrub Shirt & Cap

Course Option	Regular Fees (EURO €)	Early Bird (EURO €) BEFORE 30.5.2025
Option 1	3,800	3,610
Option 2	2,600	2,470

* Fees include morning light breakfast, interim snacks and buffet lunch
